ECHOS FROM COUNTRIES

Burkina Faso: FSRP implementation staff sensitized to measures of gender-based violence (GBV), sexual harassment (SH) and sexual exploitation and abuse (SEA)

FSRP staff members in Burkina Faso were enriched on the measures to be applied to combat gender-based violence and sexual harassment.

On 20 March 2024 in Ouagadougou, stakeholders and implementing partners of the West Africa Food System Resilience Program (FSRP) in Burkina Faso were briefed on measures to combat sexual harassment and gender-based violence... [Read more](#)

Mali: the technology park opens its doors to the public

A tomato seed production plot at the IER Research Centre in Sotuba

Stakeholders in agricultural development in Mali were invited to the third open day of the Mali Technology Park. This activity, part of the implementation of component 2 of the West Africa food system resilience program, provided an opportunity to exchange views with users of agricultural technologies, with a view to ensuring their adoption and thus improving agricultural production... Togo/Development of the cold chain: FSRP assesses infrastructure in the vegetable and poultry sectors

Working session between the World Bank mission and stakeholders in the vegetable and poultry sectors

As part of the implementation of FSRP, Togo is receiving support from the World Bank to assess the cold chain infrastructure in the vegetable and poultry sectors. To this end, exchange meetings were held from 14 to 22 March 2024 with stakeholders in the two selected sectors to assess the cold chain infrastructure and identify potential business cases for cold rooms in Togo... TOGO: 1290 poultry broodstock distributed to 169 farmers in the Savannah region

Farmers happy to receive poultry broodstock to boost productivity and increase poultry numbers

Raising poultry (hens and guinea fowl) is a common practice in the savannah region, formerly known as the "white gold" region. This is also the area par excellence for roasting and ploughing, where communities live partly from the production and marketing of poultry to meet the basic needs of their families...
