- Togo: 120 women from 60 cooperatives trained on technologies for producing and using cereal-rich flour

REGIONAL NEWS

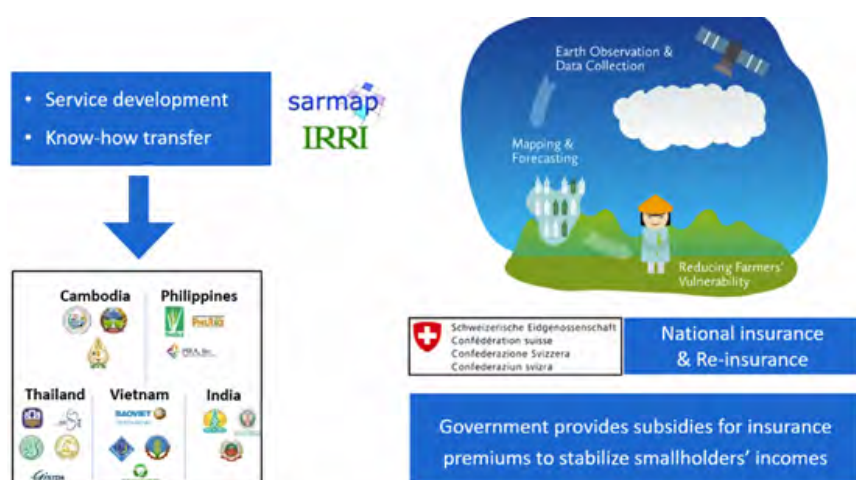

FSRP/Phase 3: Senegal joins the programme with a financial support of \$200 million

Women market gardeners harvesting onions

As part of the implementation of the multi-phase programmatic approach of the West Africa Food System Resilience Program (FSRP), the World Bank approved on 18 January 2024 a financing of 200 million dollars in support of the third phase of the program (FSRP-3) for Senegal... [Read more](#)

Improving rice production in West Africa: the RIICE tool introduced to stakeholders and partners

Descriptive diagram of RIICE

More than 70 stakeholders and partners in the West African rice sector familiarized themselves with the Remote Sensing Information and Insurance Tool (RIICE) during a technical workshop organized by the ECOWAS Rice Observatory (ERO) on January 25, 2024 online. This introductory workshop enabled stakeholders in the rice sector from.... [Read more](#)

Gender-sensitive communication: FSRP communication specialists awared

" Communication is essential to contribute to taking gender into account in activities at regional and country level " this is one of the main conclusions of Dr Mariame MAIGA, Regional Gender and Social Development Advisor at CORAF and FSRP, who led the webinar on gender-sensitive communication held on 18 January 2024... National agricultural research systems build capacity in biotechnology and bio-informatics

Learners during a practical session applying theoretical knowledge at Cheick Anta Diop University in Dakar.

As part of the West Africa Food System Resilience Program (FSRP), CORAF recently concluded a series of regional training workshops aimed at strengthening the skills of stakeholders in national agricultural research systems (NARS) in biotechnology and bioinformatics. These workshops, the latest of which took place at the end of 2023... [Read more](#)

ECHOS FROM COUNTRIES

Chad: FSRP stakeholders trained in setting up innovation platforms

Participants listened attentively as explanations were given on how to set up innovation platforms.

With a view to accelerating the implementation of the West Africa Food System Resilience Programme (FSRP) in Chad, stakeholders and partners are being trained in innovative approaches and mechanisms for the production and dissemination of agricultural technologies... [Read more](#)

Togo/Citizen monitoring of FSRP activities: civil society members trained

Members of civil society followed with interest the training to ensure citizen control of FSRP activities in Togo.

To reinforce the need for accountability in the implementation of its funding, civil society monitoring of activities has been integrated into the monitoring and evaluation mechanism of the Food System Resilience Programme in West Africa (FSRP-Togo). To this end... [Read more](#)

Togo: 120 women from 60 cooperatives trained on technologies for producing and using cereal-rich flour

Practical training session on cereal-rich flour technologies

To help households improve their resilience in the face of food insecurity and malnutrition, the Food System Resilience Programme in West Africa (FSRP-TOGO) is supporting the training of 720 women processors in the production and use of cereal-rich flour for children incorporating moringa, néré and/or orange-fleshed sweet potato (PDCO), and in good hygiene and quality practices...
