REGIONAL NEWS

4th edition of the Agricultural Innovations and Technologies Market (MITA): Over 67 technologies and innovations shared in Lome

Participants in the field visit to the Davié Technology Park in Togo appreciated the innovations available to producers

The fourth Agricultural Technologies and innovations Market (MITA), organized by CORAF in partnership with the Togolese Institute for Agricultural Research (ITRA), took place from 21 to 25 October 2024 in Lome, Togo. Under the theme: "Facilitating access to agricultural technologies and innovations for the integrated management of pests..." [Read more](#)

Integration of trade and regional agricultural markets: ECOWAS reviewed the implementation of FSRP Component 3 with the countries

Countries and ECOWAS team had fruitful discussions on the successful implementation of activities to facilitate the integration of agricultural trade and markets.

From 29 to 31 October, the Togolese Capital Lome hosted a crucial meeting for the stakeholders and implementing partners of the West African Food System Resilience Programme (FSRP). The workshop provided an opportunity to take stock of activities under component 3 of the programme, devoted to the integration... [Read more](#)

NEWS FROM COUNTRIES

FSRP-Burkina Faso adopted an action plan to set up Climate Smart Villages

Discussions with the Community of Ouda illustrated how these technologies are helping to improve people's resilience to the effects of climate change.

Following the capacity-building workshop organised in Bamako by CORAF and the Bioversity International and CIAT Alliance, as part of the Accelerating the Impacts of CGIAR Climate Research for Africa (AICCRA) project, the stakeholders of the Food System ... [Read more](#)

Ghana: FSRP moves to tackle tomato shortages & price fluctuations

A practical training session on seed tray and seed box nursery establishment at Tono

In a move to address the yearly incidence of widely fluctuating prices of tomatoes across the country and to ensure year-round availability of tomatoes in Ghana, the Ministry of Food & Agriculture, through the West Africa Food System Resilience Programme (FSRP) has deployed a combination of interventions ... Ghana: MOFA, FSRP take steps to entrench environmental, social & gender sensibilities among farmers

Participants showed a keen interest in the awareness-raising sessions on environmental and social safeguards as well as gender and gender-based violence.

The West Africa Food System Resilience Programme (FSRP) has mobilised 120 Agricultural Extension Agents (AEAs), 56 Schedule Officers and 56 District Directors of Agriculture to propagate and drive Environmental and Social Risk Management (ESRM) practices... [Read more](#)

Niger: distribution of 143.5 tonnes of improved seeds in 32 communes

M. Ousmane Sabo, producteur de riz dans la commune de Zermou, région de Zinder dans son champ de riz

As part of an initiative to improve farmers' access to climate-smart agriculture (CSA) technologies, Niger's Food System Resilience Programme (FSRP) has distributed 143.5 tonnes of improved seeds across 32 communes in four regions targeted by the programme. For the 2023 agricultural season, these seeds, made up of cowpea, rice and maize... [Read more](#)

Togo: 200 soya processors trained to comply with food hygiene standards and diversify the range of processed products on offer

With the knowledge acquired, learners will be able to offer a diverse range of high-quality processed products.

In Togo, agri-food processing is a sector that creates wealth and provides jobs for the population. Soya processing is dominated by small-scale and semi-industrial units, with large-scale units now gradually being set up across the country... [Read more](#)

Togo: 150 traders learn about customs procedures and other regulations on the Abidjan-Lagos corridor

Women play a fundamental role in intra-regional trade. They account for more than 70% of those involved in local or cross-border trade in West Africa. This strong presence of women in regional trade is a sign of the dynamism of the economy and trade in West Africa
